Checklist of compliance with the ethical requirements for authors:

As part of the article submission process, authors are compelled to verify that their submission fulfills all the below stated ethical guidelines:

1. Authors must proceed to **read the instructions** and proceed to the compliance of all the instructions relative to the presentation of the data, ethical issues and guidelines.

2. **Articles must be original** and specify in an explicit way the bibliographical sources in which results are based.

3. **Authors must not submit articles to the REEC which are being reviewed concurrently in other journal/s.**

4. **In relation to the authorship of the manuscript, it must be guaranteed the proper acknowledgement of all authors that contributed to the research and to the writing of the text.** All authors that sign the article are responsible for it and for the final version published.

5. **All article must include a list of primary sources** and bibliography used in the research, which must appear in the final part of the article.

6. Authors must **declare any relevant interest** to the REEC.

7. Authors must obtain written permission in relation to the reutilization of graphics, tables and data.
